A CASE FOR TRUMP

“In general, the art of government consists of taking as much money as possible from one class of citizens to give to another. Voltaire

It's six days until Election 2016. This writing is for those Republicans, Independents and yes, Democrats that are undecided about a President Trump. The policy differences between Trump and Clinton are dramatic while the character of both remains an enigma. With a President Trump however, America has a chance of addressing the cesspool of Washington D.C. politics and the donor class. With a President Clinton, America continues with a corrupt government that money, from any source, can buy.

Here is a synopsis of Trump's plans:

JOBS AND TRADE

1. Renegotiate the North American Free Trade Agreement or withdraw from it
2. Withdraw from the Trans-Pacific Partnership
3. Order the Secretary of the Treasury to label China a “currency manipulator”
4. Use U.S. and international laws to end foreign trading abuses that unfairly impact American workers.
5. Lift restrictions on the production of \$50 trillion dollars' worth of U.S. energy reserves including shale, oil, natural gas and coal
6. Approve the Keystone XL pipeline project and other vital energy infrastructure projects
7. Cancel billions in payments to U.N. climate change programs and use the money to improve U.S. water and environmental infrastructure

ANTI-CORRUPTION TO-DO LIST

1. Constitutional Amendment to impose term limits on members of Congress
2. Hiring freeze on federal employees to reduce the workforce through attrition
3. Requirement to eliminate two federal regulations for every new one
4. Five-year-ban on White House and Congressional officials becoming lobbyists
5. Lifetime ban on White House officials lobbying for foreign governments
6. Complete ban on foreign lobbyists raising money for American elections

IMMIGRATION AND 'RULE OF LAW

1. Cancel Obama's unconstitutional executive actions, memoranda and orders
2. Pick a conservative replacement for Supreme Court Justice Antonin Scalia

3. Cancel all federal funding to “sanctuary cities” that harbor illegal immigrants
4. Begin removing the 2 million criminal illegal immigrants from the U.S., and cancel visas to countries that won't repatriate them
5. Suspend immigration from terror-prone regions where incoming people can't be properly vetted.

BILLS HE WOULD PUSH IN HIS FIRST 100 DAYS

1. “Middle Class Tax Relief And Simplification Act”: Economic plan designed to grow the economy 4 per cent per year and create 25 million new jobs. Involves tax cuts, trade reform, regulatory relief, lifting restrictions on energy production, and encouraging companies with offshore funds to bring them back to America.
2. “End The Offshoring Act”: New tariffs on goods brought into the U.S. by American companies that relocate jobs outside the U.S.
3. “American Energy & Infrastructure Act”: Uses public-private partnerships and tax incentives to generate \$1 trillion in infrastructure investment over 10 years
4. “School Choice And Education Opportunity Act”: Redirects education dollars to allow parents to choose any public, private, charter, magnet, religious or home school; ends the 'Common Core' federal standards; and expands vocational and technical education
5. “Repeal and Replace Obamacare Act”: Replaces the Affordable Care Act with health savings accounts, removes barriers to purchasing health insurance across state lines, allows states to manage Medicaid funds and speeds up drug approval inside the Food and Drug Administration
6. “Affordable Childcare and Eldercare Act”: Provides tax deductions for childcare and elder care and incentivizes employers to provide on-site childcare services
7. “End Illegal Immigration Act”: Funds a wall on the U.S.-Mexico border, with the full understanding that the country of Mexico will be reimbursing the United States; establishes 2-year mandatory minimum federal prison sentence for illegally re-entering the U.S. after deportation, 5-year mandatory minimum for felons who illegally re-enter, and 5 years for coming back after multiple deportations; increases penalties for overstaying visas
8. “Restoring Community Safety Act”: Creates a Task Force On Violent Crime, increases federal funding of police forces and boosts federal support for anti-gang prosecutions
9. “Restoring National Security Act”: Eliminates the federal defense sequester to restore military funding, guarantees veterans the option of private health care if VA facility wait times are long, institutes new defenses against cyber-attacks, and establishes new immigration screening based on values
10. “Clean up Corruption in Washington Act”: Enacts new ethics reforms affecting politicians and their staffers

Clinton's policies of increased taxes and job choking federal regulations will only insure a no-growth economy. Workers are facing double-digit health insurance premiums, higher co-pays and less coverage under an imploding Obamacare. America cannot endure four more years of a tyrannical President who arrogantly dismisses the Constitution.
